COMMITTEES

Chair - Agriculture
Business and Labor
Government, Military and Veterans Affairs

In light of recent events detailed in four concerning documents, it is imperative to address the lack of formal censure and disciplinary action against individuals engaging in egregious behavior within the legislative body.

Document 1: Senator Ernie Chambers engaged in acts of sexual harassment against Senator Slama, coupled with threats, yet no formal censure was initiated nor was he subjected to any form of disciplinary action. (7/20/2020)

Document 2: Senator Slama duly followed the established protocol in her attempt to seek censure against Senator Machaela Cavanaugh for her remarks. However, this motion was passed over by Senator Arch. It is worth noting that the proper procedural steps for initiating censure against myself were not adhered to. (3/15/2023)

Document 3: Senator Ernie Chambers made menacing statements implying harm to members of the legislative body, yet there was no subsequent motion for censure presented. (3/23/2016)

Document 4: Senator Machaela Cavanaugh made threats of disruption to the legislative proceedings, specifically mentioning burning down the session. Despite this, no formal censure was proposed against her. (2/23/2023)
